## CONCLUSION

---

There are several other matters relating to town affairs that I would like very much to comment upon before retiring from the head of town business, but my memory is poor and I do not feel like worrying myself or others, as my successor no doubt will feel that he knows how to do the work on another system that will be more favorable to the town financially. I already hear in the air, the comments of some of my would be successors, defining how much better some of the departments can be run, and at a much greater saving to the town, than under the present regime.

I earnestly hope to see those good things come about, but I will always feel that I have done all that I could do to make my work a success, and I will be very much pleased to see others remedy the evils that they are already referring to.

Yours truly,

JOHN J. CYR
